EWSD Coursework
Version 3

Additional coursework requirements – **release week 6**

1. To improve security the system needs to remind every user of the date and time they last logged in (or welcome them if this is their first login)

2. To monitor the use of the system the administrator needs to be able to view a number of reports showing which pages are most viewed, which users are most active, which browsers are being used, etc.

Tutor can add more to this list if required.

3. For arranging a meeting, a personal tutor can select an option that is real or virtual meeting. If the meeting is physical, location and time must be provided. If it is virtual, tutor must choose the online platform (eg: Zoom, Teams, Google Meet, etc..) and meeting invitation link must also be provided.

4. If there is a student with no interaction over 28 days, the system emails a warning notification to the student and his/her personal tutor.
